Dear Friend,

God lets Bible Foundation network with hundreds of individuals, churches, ministries, groups, and shippers locally, regionally, and globally. Tons of Scripture move annually.

Through the years we have been busy moving Scripture with the help of thousands of people directly and indirectly. Due to security, it has been prudent not to make information public. Persecution, torture, death, and destruction are real in this day and age. In the midst of it, the work of God goes on and lives are transformed from darkness into light.

One group in Nigeria we have helped recently had a large baptismal service.

Bible networking since 1987

People connect via www.bf.org to help

- publicize • gather • acquire • store • pack • transport and • ship **Scripture** to hungry hearts around the world.

We recently obtained 4 Gaylord pallet boxes full of about 800 Bibles each. Volunteers helped process them. (We have no paid staff.) We want people to know what God is doing and how they can help if they want to.

We list on our website people in North America that can accept Bibles from the public and get the

surplus moving to other countries. We encourage people to seek God for wisdom to develop righteous deeds with what He provides.

One great opportunity is that Bibles with good font size are currently available with 10 case minimum orders with 28 Bibles per case and free shipping in the US for \$30.00 per case. That is 280 nice Bibles for \$300.00, delivered. When I started Bible Foundation, I wanted a way for people to see 100% of their contribution go for Bibles if they wanted. This lets them purchase the Bibles and have them delivered to a qualified nonprofit.

We thank God for what He is doing.

Jerry with Bible Foundation
