Bible Foundation was started in 1987 with the **desire of helping get God’s word into hands and hearts everywhere**. In the beginning key Scripture readings were published on 3x5 inch paper for free mass distribution. Over the years, hundreds of millions of these little Bible portions have gone around the world with many thousands of people coming to faith in Christ. This brought a **great demand for Bibles**.

Over the years, as the Lord provided, we gathered and distributed Scripture, shared resources, networked with many ministries, promoted Bible drives, shared

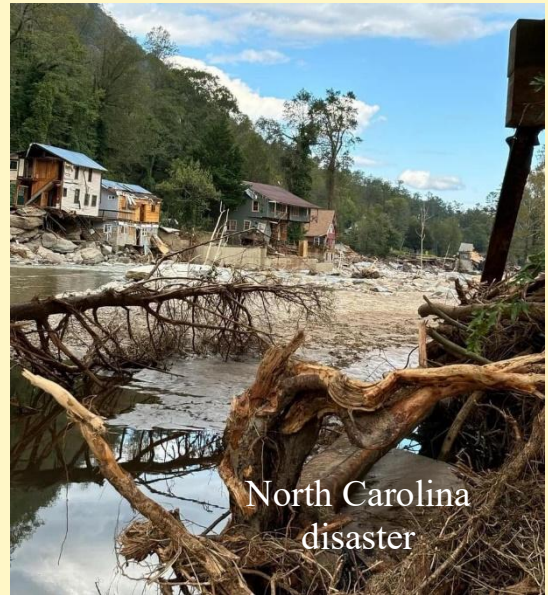

School in Ghana

contacts, including international shippers, helped people develop their own Bible ministries, and made it possible for anyone to help with the simple things they could do. The people on the front lines cannot afford to purchase all the Bible materials they could

distribute. People with a little money could purchase Bibles and have them delivered to those that could distribute them. Many small and great ministries need Bible materials and networking throught out North America is allowing everyone help gather them and get the surplus moving to other countries. All-volunteer Bible Foundation invites people to explore the cookie free website and query for networking information. When people **seek the Lord for wisdom and understanding** to please Him, they review their thoughts and deeds with Him and ask for help to depart from evil and zealously work to glorify Him.
